## DENVER ARAPAHOE DISPOSAL SITE (DADS)

The Denver Arapahoe Disposal Site (DADS) is a long-term regional non-hazardous waste disposal facility. DADS is a fully permitted Subtitle D facility located at 3500 South Gun Club Road in Aurora, Colorado. The landfill is owned by the City and County of Denver and has been operated by Waste Management of Colorado, Inc. since 1980. The landfill provides safe, environmentally sound disposal options for commercial, industrial and residential customers in the Metro Denver Area and Front Range surrounding communities.

DADS consists of approximately 2,500 acres of which 1,349 will be developed for landfilling activities. DADS is one of the nation's five largest landfills in terms of disposal capacity and daily tonnage received. This state-of-the-art secure landfill incorporates innovative concepts in landfill design, engineering, construction and maintenance. The landfill is designed, constructed and operated to meet or exceed stringent local, state and federal requirements for solid waste disposal facilities. Staff at DADS is composed of trained professionals dedicated to protecting public health and the environment, while meeting industry and community needs for comprehensive disposal and recycling services. The liner, landfill gas collection and control system and leachate collection system are key components for environmental protection. The integrity of these components are routinely monitored and reported to regulatory agencies. DADS uses an onsite environmental management system to maintain an outstanding compliance record.

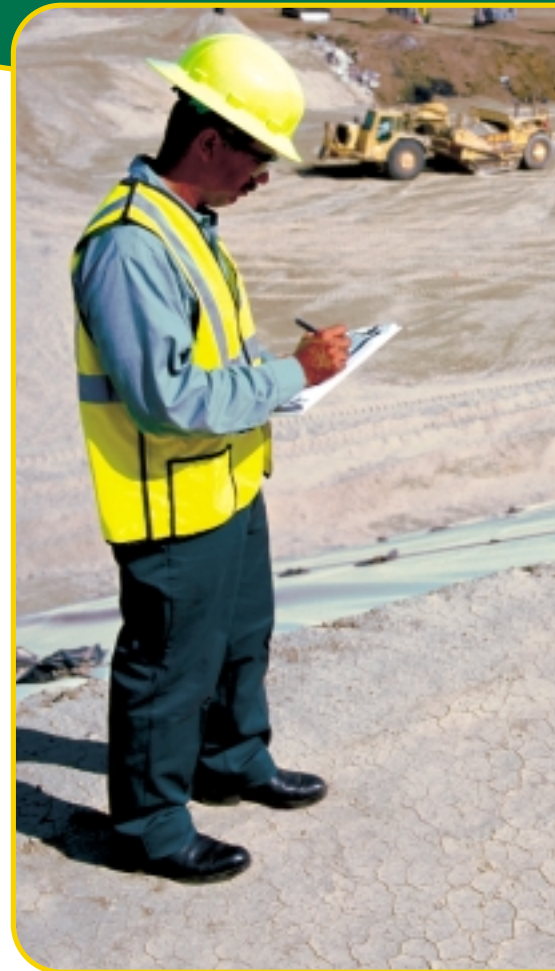

DADS has the following licenses and/or permits:

- Subtitle D (Certificate of Designation issued by Arapahoe County)
- Stormwater (Permit # COR-020000)
- Air (Title V Operating Permit #990PAR217)
- US DOT Hazardous Materials (Certificate of Registration #061303 550 022LN) for asbestos only
- Conditionally Exempt Small Quantity Generator (COD149 366 106)

The landfill currently accepts a wide range of non-hazardous materials, including:

- Municipal solid waste (MSW)
- Construction and demolition (C&D) debris
- Brush and yard waste
- Friable and non-friable asbestos
- Industrial waste, including fly ash, petroleum-contaminated soil, off-spec products and auto shredder fluff
- CERCLA non-hazardous waste

Industrial waste disposal, roll-off containers and special handling services are also available. In conjunction with project requirements, DADS can supply aggregate and soil backfill which is available onsite. In addition, the facility operates an Asbestos Monofill for the disposal of Friable and Non-Friable Asbestos. DADS also provides a waste acceptance and review program that includes technical review of waste characteristics and random load screening prior to disposal at the facility. Technical staff are available to answer questions about waste characterization and to ensure customers utilize the most cost effective and legal disposal options.

## WASTE MANAGEMENT: NORTH AMERICA'S LEADING ENVIRONMENTAL SERVICES COMPANY

### FROM COLLECTION TO DISPOSAL

DADS is part of Waste Management's vast network of solid waste disposal facilities. Headquartered in Houston, Texas, the company's North American operations include more than 300 active landfill disposal sites, plus 16 waste-to-energy plants, approximately 70 landfill gas-to-energy facilities, almost 200 recycling plants, 300 transfer stations, and more than 460 hauling companies. Combined, these resources allow Waste Management to offer a full range of environmental services to approximately 24 million residential customers and two million commercial customers throughout the United States, Canada and Puerto Rico.

### A COMMITMENT TO ENVIRONMENTAL PROTECTION

DADS offers an extensive commitment to environmental protection and preservation. Its technology and operations maintain the integrity of the local eco-system. In addition, Waste Management of Colorado supports public education programs that promote recycling and an environmentally friendly lifestyle among residents, businesses, students and other members of the community.
